Mandi, HP

TECHNICAL SKILLS

- **Programming:** Python, JavaScript, PHP
- **Frontend:** HTML5, CSS3, React.js
- **Database:** MySQL
- **Tools:** Git, GitHub, VS Code, Netlify, Mapsted

ACHIEVEMENTS

- 1st Runner-Up at National Hackathon 2025 (NIT Hamirpur).

LEADERSHIP EXPERIENCE

- Vice President of AI & Robotics Club, SPU Mandi.

EDUCATION

- **Master of Computer Applications (MCA)** | Sardar Patel University, Mandi | 2023 – 2025
- **Bachelor of Computer Applications (BCA)** | Vallabh Government College, Mandi | 2020 – 2023

PROFESSIONAL SUMMARY

MCA graduate with 6 months of internship experience at IIT Mandi, focused on developing and maintaining research laboratory platforms. Hands-on experience building responsive web applications and managing end-to-end site deployment. Practical experience in supporting healthcare, tourism, and smart agriculture projects through clean, functional code. Dedicated to building scalable solutions and contributing effectively to software engineering teams.

PROFESSIONAL EXPERIENCE

Web Development Intern | Indian Institute of Technology (IIT) Mandi

January 2026 – July 2026

- Collaborated with faculty members and research scholars to maintain official lab websites for Climate Controlled Agriculture (CCA) and Modeling & Intelligent Control (MIC).
- Developed and deployed responsive web interfaces, ensuring consistent performance across devices.
- Managed technical documentation and site maintenance routines to ensure high availability for research communication.
- Streamlined digital content workflows to support research dissemination and improve platform accessibility for users.

SELECTED PROJECTS

Blood Hub Connect

- Designed an automated emergency blood donation platform to digitize manual request processes.
- Integrated QR-code verification to replace paper-based workflows, ensuring privacy-first donor validation.
- Collaborated on NGO coordination logic to reduce response latency during critical medical emergencies.
- Created a centralized, reliable communication channel for blood donors and requesters.

Mandi Darshan

- Built a digital tourism platform for the Mandi region to centralize heritage and visitor information.
- Developed interactive mapping and 360° virtual tour components to enhance user exploration of local sites.
- Improved digital visibility for regional tourism, helping visitors plan trips with updated, accessible data.

Indoor Navigation System

- Integrated the Mapsted Indoor Mapping Platform to enable wayfinding in large-scale facilities like smart campuses and hospitals.
- Developed custom UI components for floor map rendering and navigation workflows, ensuring seamless map integration.

- Focused on deployment and cross-device testing to ensure reliable navigation in complex indoor environments.

CCA Website (IIT Mandi)

- Contributed to the development and ongoing maintenance of the official Climate Controlled Agriculture research website.
- Implemented responsive design updates to enhance data accessibility for researchers.
- Managed the deployment pipeline and verified site performance to ensure a stable digital presence.

MIC Website (IIT Mandi)

- Developed and maintained the official lab website for Modeling & Intelligent Control, focusing on a clean, responsive user interface.
- Structured research information for better accessibility and academic visibility.
- Managed deployment tasks to maintain site uptime and support accurate digital presentation of laboratory projects.
